World Heart
Day 2021

We're having a **societì** Super Hero Day!
Join us and help protect tiny hearts
from **Kawasaki Disease!**

Location:.....

Date:..... Time:.....

Kawasaki Disease is the leading cause of acquired heart disease in children in the UK - we want every parent and doctor to be able to recognise the symptoms and help protect tiny hearts!
If a child has persistent fever plus any two or more of these symptoms, please THINK Kawasaki Disease!

Know the symptoms!

Persistent fever

Cracked lips/'strawberry' tongue

Rash

Swollen fingers/toes

Bloodshot eyes

Swollen glands
