

# *societì* Non Uniform Day! for Kawasaki Disease Awareness!

*We're having a Non Uniform Day!  
Join us and help protect tiny hearts!*

*Location:.....*

*Date:..... Time:.....*

Would **you** know the symptoms?

**Kawasaki Disease** is the leading cause of acquired heart disease in children in the UK - we want every parent and doctor to be able to recognise the symptoms and help protect tiny hearts!  
**If a child has persistent fever plus any two or more of these symptoms, please THINK Kawasaki Disease!**

**Persistent fever**

Cracked lips/'strawberry' tongue

Rash

Swollen fingers/toes

Bloodshot eyes

Swollen glands
