

International Kawasaki Disease Awareness Day
26 January 2026

Let's protect children's
hearts, together...

societi *We are the UK Foundation
for Kawasaki Disease*

*International Kawasaki Disease
Awareness Day - 26 January 2026*

Fundraising pack

Help us shine a light
on Kawasaki Disease

societi.org.uk

Click to donate

Please consider a donation to Societi Foundation. It's quick and simple to make a donation via JustGiving.

Thank you for downloading our fundraising posters and leaflets pack and for wanting to raise funds for Societi Foundation. We've created this poster pack to make it easy for you to download and print fundraising posters for your event, whatever it is that you decide to do! You may even get some ideas from the posters in this pack!

Click the red bars below to go straight to the resource, or scroll through the pack to see all of our posters. If you're unable to print out the information in this pack but would still like to fundraise, please do [get in touch](#) and we can send you the resources you need. We'll always help where we can!

And... whatever you do to raise funds, please do let us know! We'd love to promote what you're doing!

My Societi Fundraising Event

If none of the below posters cover your event, this poster has space for you to include details of your own Societi event

Wear Red Day

Super Hero Day

Quiz Night

Non Uniform Day

Fun Mile

Curry Night

Coffee Morning

hearts, together...

My *societì* fundraising event! for Kawasaki Disease Awareness!

We're fundraising for Societi Foundation
Join us and help protect children's hearts!

Event name:

Location:

Date:

Time:

Would **you** know the symptoms?

Kawasaki Disease is the leading cause of acquired heart disease in children in the UK - we want every parent and doctor to be able to recognise the symptoms and help protect children's hearts!
If a child has persistent fever plus any two or more of these symptoms, please THINK Kawasaki Disease!

Persistent fever

Cracked lips/'strawberry' tongue

Rash

Swollen fingers/toes

Bloodshot eyes

Swollen glands
